8. Fairly well supplied.

9. *Seeds sown.*—Nil.

State of Standing Crops.—Sugarcane is being harvested in Mandya and French-Rocks Taluks. The standing crops such as paddy, sugarcane, ragi, horsegram and other millets are reported to be good in the taluks of Mandya and Maddur. But an account of the failure of timely rainfall in the taluks of Nagamangala, Malvalli, French-Rocks, Seringapatam and Krishnarajpet the ragi crop has suffered considerably and the yield is expected to go far below the standard.

10. Prospects of the season are reported to be fair. Fodder and water were available in sufficient quantities.

11. The condition of the agricultural stock was good. Public health was generally good except for the prevalence of Plague in Dudda and Channappanadoddi of Mandya Taluk; Arakere and Ballekere of Seringapatam and in Krishnarajpet and Maddur Taluks. Preventive measures have been adopted to check the spread of the disease. Cattle are reported to be generally healthy except for the prevalence of "Black-quarter" in French-Rocks Taluk. Necessary measures are being taken to check the epidemic.
